## NATIONAL ENVIRONMENT AND CLIMATE CHANGE CONGRESS 2018

March 20<sup>th</sup> - 22<sup>nd</sup> 2018, Thiruvananthapuram

Organised by  
Directorate of  
Environment and Climate Change  
(DoECC)

CONFERENCE FOCAL THEME  
Urban Environment

In Collaboration with  
ENERGY MANAGEMENT CENTRE (EMC),  
Thiruvananthapuram

## ABOUT CONFERENCE

Climate change is one of the most challenging issues with global and national significance. Understanding the role of the urban environment in the context of climate change on regional scales is vital to face significant challenges such as adaptation to dynamic climate risks and protection of critical infrastructure systems and residents' livelihoods. The climate thresholds that may trigger the vulnerabilities to climate extremes are not fully understood in the towns and cities. In this context, the conference on National Environment and Climate Change, may address the trends in climate change and its impact on different aspects of our urban environment.

## ABOUT DoECC

The Department of Environment and Climate Change (DoECC) is established with an aim of protection and conservation of the environment of Kerala State. The Department coordinate and assess the activities related to environment and climate change such as research and development, create awareness, monitoring and scrutinizing environmental related proposals, etc. at all stake holders of the society. The Directorate is the functional unit of the Department to co-ordinate all the above mentioned activities at the State level, including policy level advocacy in environment and climate change. The Directorate is situated at Thiruvananthapuram.
